QikBOX

QikBOX is a perfect solution for utilising QikFit system power modules for under desk power provision. The QF45 size FR-ABS QikBOX enclosure is designed for on-site confi guration with varying combinations of QikFit power, USB charging and Data/AV modules.

QikBOX can be fitted with optional screw fixing brackets for secure installation, and fixing clips are also available for the OE QIKTRAY cable tray and Easy Clamp system.
